

SE-Introduction to programming session-3

(Q.4) Identify and correct the invalid variable names from this list:
1stPlayer,player_age,\$score,totalmarks,userName.

Hint: Apply standard variable naming rules for your programming language.

Ans. 1. 1stPlayer → Invalid → firstPlayer

2. player_age → Valid

3. \$score → Invalid → score

4. total-marks → Invalid → total_marks

5. userName → Valid
